Jameson Brown

Senior Software Engineer

jameson13b@icloud.com • 619.888.2517
Salt Lake City, Utah

Experienced software engineer with over 5 years of professional experience, specializing in frontend development. My expertise lies in crafting attractive, responsive, and user friendly interfaces. I have worked with cross-functional teams and stakeholders, promoting a positive and inclusive work environment. I am confident in my ability to contribute to a team-oriented culture, fostering innovation and driving project success.

Professional Experience

MX Technologies, Lehi, UT   June 2019 — Present
Senior Software Engineer

- Participate in design reviews with peers and stakeholders to decide amongst available technologies.
- Review code developed by others and provide feedback to ensure best practices. Collaborated with Product Managers to exceed customers needs.
- Contributed to and built a culture of documentation.
- Triage product issues and debug/resolve by analyzing sources of issues and impact.
- Coach and support engineers on the team with a focus on feedback and growth.
- Managed project priorities, deadlines, and deliverables.
- Integrated companies first product with multiple languages with a system that allows supported languages to scale.
- Added full stack product analytics to determine potential areas of improvement and conduct A/B experiments on new features/enhancements. Set analytic standards for other products at MX.
